Rob: Thank you for returning my sign.

Did you look at my list of alternative locations for deer hunting in Niagara? I have attached it again. These places have proven safety protocols and public support for hunting deer and if the Hunters went there we wouldnt protest them and we could praise MNR and the Hunters for listening to our public safety concerns with respect to hunting in SHP, basically in an urban area. Rob, I am not suggesting a protocol; my group would all sign a binding agreement to that effect.

Think about it.

Sheila Krekorian, SHWLA
